week would count the days
sets of love from both of us

P.S. We may not ship our chest
down right now as Mamma thinks
maybe it will have to come back in
the fall before we go to
home & live to living - so then

My Dear Mamma -
Dear Deerwester, ...
That sure made me mad - but
oh boy Willie Shippo - I can
just picture you whelping
about arm to the altar, probably
Venetta would give Willie
away. Haha - I suppose it
wasn't so funny to you -
Mamma don't every one have
worries though, glee I suppose
Marian went to school, did
she have to go alone -
Am sending this clipping for you
to put in your bunch to save I
would lose it if I tried to keep
it.
Mamma I have decided to take
some work at school so I

Might teach 2 or 3rd grade some time
The Heddles + us went to West Bend
in " " car it's about 40 miles a
Catholic priest has built a "Grotto" there
a kind of a Cave effect, he has
built the whole thing by hand
and it's all out of beautiful stones
and shells he has collected, there is
a Madonna statue in it, it isn't
finished yet he expects to finish it
in 1925, it is perfectly beautiful
he charges nothing to see it, people
come from everywhere to look at it.
Maurice isn't a bit well there is
a cold epidemic going around
and he has it proper - Marie +
Clinton wanted us to go to Inter Lachen
to day but he didn't feel like it and
I was glad we didn't go -
Mama Maurice said all his films
were mixed up he had forgotten about
Hattie giving him films, and if
she wants the pictures right away
we will mail all our films to her
and she can pick out the ones she
wants - I owe her a letter and
oh boy it's hard to write to her
